Response to the Paired Reading Selections Released Item # 22 Scoring Guide

1B: RESPONSE TO THE PAIRED READING SELECTIONS

DIRECTIONS:

Think about *both* of the selections in Part 1A as you answer the following question. You may look back at the selections as often as needed.

22 Do you think Eric would want a porcupine as a pet?

Explain your answer using specific details and examples from both "Eric's Lizard" and "Porcupine." Be sure to show how the two selections are alike or connected.

Use the checklist on the next page to help you with your response.

Your response must be written in the lined spaces on page 15 and 16. Only the writing on the two lined pages will be scored. No additional sheets may be used.

You may not use any resource materials (dictionaries, grammar books, spelling books, etc.) for any part of this test.

PART 1B: CHECKLIST FOR THE RESPONSE TO THE PAIRED READING SELECTIONS

DIRECTIONS:

Use this checklist to help you with your response. Your response must be written in the lined spaces on pages 15 and 16.

CHECKLIST:					
	Do I take a position and clearly answer the question I was asked?				
	Do I support my answer with specific examples and details from <i>both</i> reading selections?				
	Do I show how the two reading selections are alike or connected?				
	Is my response complete?				

Michigan Educational Assessment Program Rubric for the Response to the Paired Reading Selections Grades 3–8

Here is an explanation of what scorers think about as they score this writing:

- The student clearly and effectively chooses key or important ideas from each reading selection to support a position on the question and to make a clear connection between the reading selections. The position and connection are thoroughly developed with appropriate examples and details. There are no misconceptions about the reading selections. There are strong relationships among ideas. Mastery of language use and writing conventions contributes to the effect of the response.
- The student makes meaningful use of key ideas from each reading selection to support a position on the question and to make a clear connection between the reading selections. The position and connection are well developed with appropriate examples and details. Minor misconceptions may be present. Relationships among ideas are clear. The language is controlled, and occasional lapses in writing conventions are hardly noticeable.
- The student makes adequate use of ideas from each reading selection to support a position on the question and to make a connection between the reading selections. The position and connection are supported by examples and details. Minor misconceptions may be present. Language use is correct. Lapses in writing conventions are not distracting.
- The student takes a clear position on the question. The response makes adequate use of ideas from one reading selection **or** partially successful use of ideas from both reading selections to support the position. The position is developed with limited use of examples and details. Misconceptions may indicate only a partial understanding of the reading. Language use is correct but limited. Incomplete mastery over writing conventions may interfere with meaning some of the time.
- The student takes a clear position on the question. There is partially successful use of ideas from one reading selection **or** minimal use of ideas from both reading selections to support the position. The position is underdeveloped. Major misconceptions may indicate minimal understanding of the reading. Limited mastery over writing conventions may make the writing difficult to understand.
- The student takes a position on the question but only makes minimal use of ideas from one reading selection **or** the student attempts to support an unclear position with minimal use of ideas from both reading selections. Ideas are not developed and may be unclear. Major misconceptions may indicate a lack of understanding of the reading. Lack of mastery over writing conventions may make the writing difficult to understand.

Condition codes for unratable papers (zeroes):

- A Off Topic
- B Written in a Language other than English or Illegible
- C Blank or Refusal to Respond
- D Retells or references the reading selections with no connection to the scenario question or theme
- E Responds to the scenario question with no reference to either of the reading selections

Anchor Paper 1—Score Point D

In this response, the student merely retells the beginning of "Eric's Lizard," without taking a position or connecting any of the detail to the question that was asked. This is not a creditable response.

Although the reference is underdeveloped, it is evidence of having read the selection and therefore it minimally supports the position. The second sentence is too vague to give any credit. There is no connection between the reading selections.
